## **Discovery – Selecting a Target**

This example is on iterating the map and selecting a target in the Discovery phase. This is an example from running a UCD Sprint for making the ucdsprint.com website.

This is how the blackboard looked:

The day to	Tind inspiration	Q/A providentistop Find help - when minded		Quezzes/ Give
The therman	Find a topk at examples Find a topke ueb spint Find the	Access instructions	Adaphing and apply methods to	Fullbook ant app. the UCD sp in a lively temperation
the produce theorets	Find the Why	(thick ist, vidio. On rach in the	Your needs	Make a manual repository/ Forma 11
				-

Here is a figure made in a drawing tool:
